

REMARKS

Entry of the foregoing Preliminary Amendment prior to examination of this application is respectfully requested.

A new paragraph regarding the claimed foreign priority of the present application has been added to the beginning of the specification. Subtitles similar to those set forth in 37 C.F.R. 1.77 have been added throughout the specification. Claims 3 and 6 have been amended to either eliminate certain multiple dependencies or claim language inconsistent with U.S. patent practice. No claims have been cancelled and new claims have been added. As a result, claims 1-7 remain pending.

In view of the above, it is respectfully submitted that the invention of claim 1 is patentable. Further, the subject matter of the remaining dependent claims is patentable at least by virtue of direct or indirect dependence on claim 1. Therefore, it is believed that all pending claims of this application are in condition for allowance. Accordingly, a prompt Notice of Allowance for all pending claims of this application is respectfully solicited.

Respectfully submitted,

Date: 4/14/05
